# Our role in Coastal flood and erosion risk management

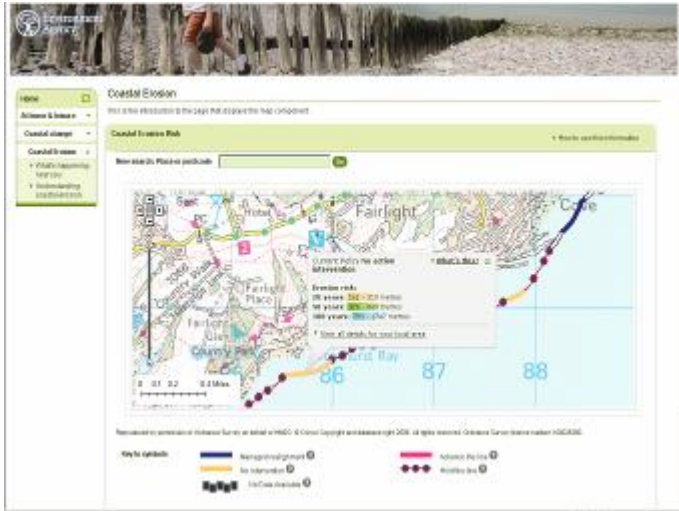

- Develop and monitor national Flood and Coastal Erosion Risk Management strategies (published in 2011) and report progress to ministers.
- Administer grants for flood and coastal erosion risk management.
- Establish Regional Flood and Coastal Committees.
- Powers to carry out Coastal protection

# Improving and communicating our evidence

# Final thoughts...

## Shoreline Management Plans

- ➔ reporting on coastal management progress;
- ➔ strategic documents linking National Strategy and local circumstances;
- ➔ require a partnership approach to be successful;
- ➔ scientific monitoring used to keep them up to date;
- ➔ take into account climate change;
- ➔ local people, increased awareness, adaptation and protection.
